*System requirements: PC with Windows, Internet Explorer as well as Macromedia Flash player, minimum requirement version 8.0.*

## Gender and equality

**EQUALITY** is an important democratic issue in society. That is why this basic education about gender and equality in working life has been produced. It has been designed to be of benefit for you regardless of which organisation you work for within the European Union membership countries.

The education has been developed in collaboration with Banverket, Minerva Foundation and the Swedish Road Administration as part of the project Gender School. This project has been partly financed by the EU programme Equal. The aim of the education is to contribute to a more equal working life.

Minerva

*Do you want to know more?  
Go into [www.genderschool.se](http://www.genderschool.se)*

## Gender and

*There is now a computer-based education on gender and equality in working life.*

*We explain the concepts and provide you with practical knowledge to help you integrate equality into your work. The original was carried out in Swedish but parts of the education have been adapted to the European Union and translated into English.*
